

**Plenary meeting of the IEC/TC4**

**Hydraulic Turbines**

# **Meeting Guide**

**September 24-28, 2018**

**Milano, Italy**

**Welcomes the IEC TC4 delegates to the  
Plenary Meeting  
Held in Milano, Italy  
September 24-28, 2018**

### 1. Location

The location of the conference will be Milan, Italy where culture, history and technology meet and merge. Milan is, at same time the industrial and commercial heart of Italy, the location of some of the most important Italian Energy Utilities (ENEL, A2A, EDISON, EDIPOWER etc.) and the place where Leonardo da Vinci developed and applied his studies on hydraulics and he studied the Navigli grid that was completed only centuries afterwards.

***“ ne lo parlar de l’acque intelletto e scienza seguono isperienza”***

Milan is the economic and productive center of Italy and with more than 400 billion dollars, the metropolitan area of Milan is the first area in Italy and the eleventh in the world for gross domestic product, moreover, it is the main investment hub foreigners in Italy, sixth in Europe, after London, Paris, Dublin, Madrid and Munich.

The urban region contributes 10.3% of the national GDP, is home to over 45% of all companies in Lombardy, over 8% present throughout Italy.
